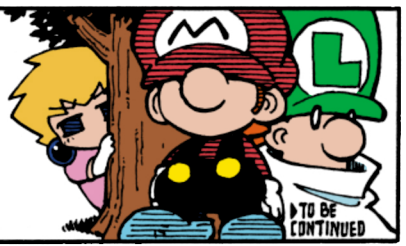
With a little assistance from Bullet Joe and the star, Prince Bowser managed to hurl the Arwing all the way into outer space. Even as a child, he possesses more than enough potential to become the next Great Demon King.
For now, let's take a break from Bowser's adventures. Next time...


Two brothers and a princess are scheduled to make an appearance. We've received tons of great illustrations, but haven't been able to share many up until now. To all of you Luigi fans who were wondering, "When are Mario and the others going to show up?" (haha) sorry to keep you waiting.
